Evacuation

If the alarm is raised, the fire bells will ring throughout the building. You are in no immediate danger, but be ready to evacuate the building.

If the bells ring continuously, leave immediately using the nearest exit or stairway. **DO NOT USE THE LIFTS OR GO BACK FOR PERSONAL BELONGINGS!**

If you are in your room, exit with caution. Make your way down to the parking place using the nearest exit as shown on the diagram on the back of the door in your room.

If you discover a fire

Operate the nearest fire alarm (break glass point) or press 0 (operator) on an internal phone.

Close the doors and windows around the fire area to prevent it from spreading.

Do not attempt to fight any fires - raise the alarm and leave the building by the nearest exit.

Stay calm.
